District Council 3

The Builders’ Association Training Center is a 105,000-square-foot facility of shared administrative offices and training space for multiple construction trades training programs. The Builders’ Association also offers construction-related classes, such as LEED certification and Blueprint DPE instruction, that all affiliated union trades can attend.

The District Council No. 5 Finishing Trades Institute of Western Washington features a spray booth, a blast booth, steel industrial mockup, and journeyman-level “painter testing” and upgrade classes.

The Regional Training Centers provide training to members of three IUPAT local unions (locals 10, 724 and 1277) in Western Oregon and SW Washington. Introductory and advanced classes are available at no charge to painters/decorators, drywall finishers and traffic-control painters who are enrolled in the apprenticeship or journeyman programs.

See next page for more Training Centers in this District.

The District Council 38 Finishing Trades Institute features modules constructed by its lather apprentices; taped and mudded by drywall taper apprentices; and finally painted and re-painted by successive classes of painters. The facility also houses a swing stage, a lift, a virtual painter, spray booths, a sandblasting area and other special facilities which simulate an actual worksite. Classroom spaces feature appropriate audio-visual capabilities and resources required of a professionally designed learning environment.

Trades Educated: Painter/Decorator, Drywall Finishing, Glazier
The District Council No. 82 Minnesota Finishing Trades Training Facility provides training in faux and fine finishing; all applications of spray; floor coatings; bead blast; wallcovering; and specialty glazing; boom, scissor and scaffold training; welding labs; and Green LEED certification training. FTI-UM trains apprentices and journeypersons in all aspects of painting, glazing, glassworking, drywall finishing, sign installation and convention working along with basic math skills. The primary goal of FTI-UM is to train members so they progress in their trades and have a positive economic impact on their communities.

FTI-UM serves apprentices and journey workers in the entire states of Minnesota, North Dakota, Montana and a western 22 county portion of Wisconsin. Every year, between 70 and 100 new apprentices are hired to fill the needs of our industry. Apprenticeship programs combine experience and training on the job with related and theoretical instruction. Unlike many training programs, apprentices receive wages, benefits and even periodic pay raises. Successful completion of the apprenticeship training is acknowledged with a certificate of completion from the Department of Labor.
